Wealth Strategy Snapshot

Educational Analysis

2026 Tax Year Planning

Prepared for Victoria West | February 2026

Educational scenario modeling for discussion with licensed professionals

SECTION 1

Executive Summary

This analysis explores tax optimization strategies and investment concepts for the 2026 tax year, tailored to your financial profile as an S-Corp business owner in Idaho with approximately $350K–$500K in combined income. The strategies modeled address your stated goals of reducing business taxes through proper year-round planning and positioning your daughter for long-term success.

Based on your profile, including recent 1031 exchange activity, an existing Solo 401(k), content creation interests, and moderately aggressive investment approach, this snapshot models potential first-year value ranging from **$73,960** (conservative scenario) to **$341,064** (aggressive scenario including real estate acquisition). Implementation of any strategy should be verified with your CPA and licensed financial advisor.

MODELED FIRST-YEAR VALUE RANGE (2026)

$73,960 — $341,064

Conservative to Aggressive scenario · Illustrative estimates only

---

SECTION 2

Current Financial Position

FILING STATUS / AGE

Single · Age 34 · 1 Dependent

STATE OF RESIDENCE

Idaho (5.30% flat income tax)

HB 40, signed March 2025, retroactive to Jan 1, 2025

BUSINESS INCOME

$300K–$399K (S-Corp, 2+ yrs)

ADDITIONAL INCOME

$75K–$99K (side / other)

EST. COMBINED MARGINAL RATE

~40.3% (35% federal + 5.3% ID)

LIQUID CAPITAL AVAILABLE

$147,851 (post-1031 remaining)

PRIMARY RESIDENCE

$850,000 (owned outright, no mortgage)

BROKERAGE / INVESTMENTS

$50K brokerage · small BTC position (<1%)

REAL ESTATE PORTFOLIO

2–3 investment properties (LTR via 1031 exchange)

INVESTMENT APPROACH

Moderately Aggressive · 2–5 hrs/week

RETIREMENT ACCOUNTS

Solo 401(k) exists · partially funded

CREDIT SCORE / STATUS

680–719 · Green card holder · Limited credit history

KEY CIRCUMSTANCES

Recently completed 1031 exchange (bare land → 2 LTR properties purchased outright + 1 financed with exchange remainder). Whole life insurance premium paid. $30K loan to sister. Daughter's SSN pending (delayed birth certificate). CPA indicates 2025 capital gains may be reduced close to zero given property basis from improvements.

> **⚠ Pending Item — Daughter's SSN:**
>
> You indicated your daughter does not yet have an SSN due to a delayed birth certificate process. This affects your ability to claim the dependent exemption and child tax credit ($2,200 under OBBBA) for 2025. Discuss with your CPA whether filing an extension (automatic 6 months to October 15, 2026) is appropriate to allow time for the SSN to be obtained.

> **⚠ 2025 Tax Liability Uncertainty:**
>
> Until your 2025 return is finalized confirming the 1031 exchange and basis from improvements offsets the capital gain, maintaining cash reserves is prudent. Consider the conservative deployment scenario ($75,000) until your CPA confirms the 2025 liability picture.

SECTION 3

30-Day Awareness Items

The following items have time-sensitive components worth discussing with your professional team. These are awareness items, not directives.

> **Solo 401(k) Maximization**
>
> Your existing Solo 401(k) may not be fully funded for 2025 (employer contributions can still be made until your tax filing deadline, including extensions). For 2026, the employee deferral limit increases to $24,500. Discuss contribution strategy with your CPA.

> **2025 IRA Contribution Window**
>
> You have until April 15, 2026 to make a 2025 IRA contribution ($7,000 for 2025). A Backdoor Roth IRA may be appropriate given your income level. The 2026 limit increases to $7,500.

> **HSA Eligibility Evaluation**
>
> If you switch to or enroll in a High Deductible Health Plan (HDHP), you could contribute up to $4,400 (individual, 2026) to a Health Savings Account. Under OBBBA, bronze and catastrophic marketplace plans now qualify as HSA-compatible starting January 1, 2026. Evaluate with your insurance professional.

> **Augusta Rule Documentation**
>
> If your S-Corp rents your personal residence for business meetings, the Augusta Rule allows up to 14 days of tax-free rental income. Documentation of fair market rental rates in your Idaho market should be established. This applies to 2026 events going forward.

SECTION 3.5

2025 Tax Year: Remaining Opportunities

The following 2025 contributions can still be made before April 15, 2026:

STRATEGY	2025 LIMIT	DEADLINE
Traditional/Roth IRA	$7,000 (+ $1,000 if 50+)	April 15, 2026
HSA Contributions	$4,300 individual / $8,550 family (+ $1,000 if 55+)	April 15, 2026
Solo 401(k) Employer Portion	25% of net SE income (plan must already exist)	Tax filing deadline + extensions
SEP IRA	25% of compensation, up to $69,000	Tax filing deadline + extensions

No Longer Available for 2025: 401(k) employee deferrals (Dec 31 deadline passed), W-4 adjustments (only affect 2026 forward), Augusta Rule rentals (must have occurred in 2025), Solo 401(k) employee contributions (Dec 31 deadline passed).

> *Verify 2025 contribution eligibility with your CPA. Making prior-year contributions requires careful coordination with your tax return.*

SECTION 4

Tax Strategy Education

The following strategies are commonly used by S-Corp business owners in your income range. Each is presented educationally with 2026 figures. Eligibility and implementation must be verified with your CPA.

Strategy Concept: Solo 401(k) Maximization

Potential Tax Savings: $9,874 – $18,639

What It Is: A retirement plan for self-employed individuals allowing both employee and employer contributions, potentially deferring significant income from current taxation.

How It Works: For 2026, the employee deferral limit is $24,500. As an S-Corp owner, the employer can also contribute up to 25% of your W-2 salary from the S-Corp. At your 40.3% combined marginal rate, the employee-only contribution of $24,500 models potential tax savings of $9,874. With employer contributions reaching $46,250 total, modeled savings increase to $18,639. The total combined limit for 2026 is $72,000.

Eligibility Criteria: Self-employment income, no full-time employees (spouse exception applies), plan established before December 31, 2026 for employee contributions. Your existing Solo 401(k) satisfies the establishment requirement.

Age Note: At age 34, you are below the catch-up contribution threshold (age 50+). No catch-up applies.

> *Verify contribution limits and reasonable salary allocation with your CPA. 2026 limits shown per IRS Notice 2025-67.*

Strategy Concept: HSA Maximization

Potential Tax Savings: $0 – $1,773

What It Is: A triple-tax-advantaged savings vehicle: contributions are pre-tax, growth is tax-free, and qualified medical withdrawals are tax-free.

How It Works: The 2026 individual HSA contribution limit is $4,400 (per Rev. Proc. 2025-19). At a 40.3% combined rate, maximizing contributions models $1,773 in tax savings. Requires enrollment in an HSA-eligible High Deductible Health Plan (HDHP). Under the OBBBA, bronze and catastrophic marketplace plans are now HSA-compatible starting 2026, expanding eligibility.

Eligibility Criteria: Must be enrolled in an HDHP with minimum deductible of $1,700 (individual, 2026). Cannot be enrolled in Medicare or claimed as a dependent. You indicated you do not currently have an HDHP.

Conservative scenario shows $0 because HDHP enrollment has not been confirmed. Aggressive scenario assumes HDHP enrollment during 2026 open enrollment or qualifying life event.

> *Evaluate HDHP options with your insurance professional. HSA eligibility requires qualifying coverage for each month of contribution. 2026 limits shown.*

Strategy Concept: Augusta Rule (IRC §280A(g))

Potential Tax Savings: $2,418 – $3,949 | Tax-Free Income: $6,000 – $9,800

What It Is: IRC §280A(g) allows a homeowner to rent their personal residence for up to 14 days per year without reporting the rental income. When your S-Corp rents your home for legitimate business meetings, the S-Corp receives a business deduction while you receive tax-free income.

How It Works: Your $850,000 home (owned outright) in the Idaho market may support a daily rental rate of approximately $430–$700 based on comparable event venue rates. At 14 days: conservative models $6,000 in tax-free income ($2,418 in business tax savings at 40.3%); aggressive models $9,800 ($3,949 in tax savings).

Documentation Requirements: Written rental agreement between you and your S-Corp, comparable rental rate analysis (comparable venues, Vrbo/Airbnb comps), documented business purpose for each rental day (board meetings, planning sessions, retreats), and meeting minutes or agendas.

> *The IRS examines Augusta Rule usage carefully. Ensure fair market rental rates are documented with comparable properties. Discuss documentation standards with your CPA.*

Strategy Concept: Home Office Deduction

Potential Tax Savings: $604

What It Is: A deduction for the business use of a portion of your home that is used regularly and exclusively for business.

How It Works: The simplified method allows $5 per square foot up to 300 sq ft, for a maximum deduction of $1,500. At 40.3%, this models $604 in tax savings. The actual expense method may yield higher deductions depending on your home's costs, but requires more detailed recordkeeping.

As an S-Corp owner, the home office deduction is typically structured through an accountable plan reimbursement from the S-Corp to you, rather than as a personal deduction on Schedule C.

> *Verify the deduction method and S-Corp reimbursement structure with your CPA.*

Strategy Concept: Vehicle Expense Deduction

Potential Tax Savings: $2,191 – $3,506

What It Is: Business use of a personal vehicle can be deducted using the IRS standard mileage rate or actual expense method.

How It Works: The 2026 standard mileage rate is 72.5¢ per mile (Rev. Proc. 2025-32). At an estimated 7,500–12,000 business miles annually, deductions range from $5,438 to $8,700, modeling tax savings of $2,191 to $3,506 at 40.3%. A contemporaneous mileage log is required documentation.

S-Corp Structure: Through an accountable plan, your S-Corp reimburses you at the IRS standard mileage rate. The reimbursement is a deductible business expense for the S-Corp and tax-free income to you.

> *Mileage logs must be maintained contemporaneously. Discuss mileage rate vs. actual expense method with your CPA. 2026 rate shown.*

Strategy Concept: Accountable Plan

Potential Tax Savings: $1,209 – $2,015

What It Is: An IRS-compliant arrangement allowing your S-Corp to reimburse you for legitimate business expenses (technology, travel, continuing education, subscriptions, internet) tax-free.

How It Works: Reimbursable expenses of $3,000–$5,000 annually, processed through the S-Corp as business deductions, model tax savings of $1,209–$2,015 at 40.3%. Unlike the mileage reimbursement (separate line item), this covers other business costs that would otherwise be non-deductible personal expenses for a W-2 employee of your own S-Corp.

Requirements: Written plan, business connection for expenses, substantiation with receipts/records, return of excess reimbursements within 120 days.

> *The accountable plan must be formally adopted by your S-Corp. Discuss eligible expenses with your CPA.*

Primary Strategy Education: Real Estate & Cost Segregation

Given your existing real estate portfolio (2–3 LTR properties via 1031 exchange) and $850K primary residence, the following concepts are particularly relevant to your profile.

Cost Segregation with 100% Bonus Depreciation (OBBBA)

The One Big Beautiful Bill Act (OBBBA), signed July 4, 2025, permanently restored 100% bonus depreciation for qualified property acquired and placed in service after January 19, 2025. This is a significant change from the prior TCJA phase-down schedule (which had dropped to 40% for 2025, 20% for 2026 for property acquired before that date).

How Cost Segregation Works: A cost segregation study reclassifies building components (flooring, cabinetry, electrical, plumbing fixtures, landscaping) from 27.5-year residential depreciation into 5-year, 7-year, or 15-year property eligible for bonus depreciation.

Example Scenario (Aggressive — New $375K STR Property):

STEP	CALCULATION	AMOUNT
Purchase Price		$375,000
Less: Land Value (20%)	$375,000 × 20%	($75,000)
Depreciable Building Basis		$300,000
Cost Seg Reclassified (~35%)	$300,000 × 35%	$105,000
100% Bonus Depreciation (OBBBA)	$105,000 × 100%	$105,000
Remaining Straight-Line Y1	$195,000 ÷ 27.5	$7,091
Total Year 1 Depreciation		**$112,091**
Modeled Tax Savings	$112,091 × 40.3%	**$45,173**

For Existing 1031 Properties: If your LTR properties were acquired after January 19, 2025, they qualify for 100% bonus depreciation under OBBBA. A cost segregation study on these properties could accelerate significant depreciation. If acquired before that date, the TCJA phase-down applies (40% for 2025 placements, 20% for 2026).

> ⚠ **STR vs. LTR Tax Treatment**
>
> Short-term rental (average stay under 7 days) losses may offset active/W-2 income without Real Estate Professional (REP) status if you materially participate. Long-term rental losses are generally passive and subject to the $25,000 passive activity loss allowance (which phases out between $100K–$150K AGI for single filers, likely fully phased out at your income level). Discuss the STR vs. LTR tax treatment of your existing properties with your CPA.

> *Cost segregation studies should be performed by qualified engineering firms. Real estate tax strategies have specific documentation and participation requirements. Work with a qualified tax professional to ensure compliance.*

QBI Deduction (Section 199A) — Made Permanent by OBBBA

The 20% Qualified Business Income deduction for pass-through businesses has been made permanent by the OBBBA (previously set to expire after 2025 under TCJA). For your S-Corp income, this potentially deducts 20% of qualified business income, subject to limitations based on W-2 wages paid and the unadjusted basis of qualified property.

Important for Your Profile: Whether your business is classified as a Specified Service Trade or Business (SSTB) affects the deduction at your income level. Content creation and consulting may be classified as SSTB, which phases out the deduction for single filers with taxable income between $197,300 and $247,300 (2026 est.). Discuss your specific business classification with your CPA.

> *QBI calculations are complex and depend on your specific business classification, W-2 wages, and property basis. Verify with your CPA.*

SECTION 6

Illustrative Investment Scenarios

The following scenarios model how different capital deployment amounts might be allocated based on a moderately aggressive, growth-focused approach with 2–5 hours per week available for investment management. These are educational illustrations, not recommendations.

CAPITAL DEPLOYMENT

SCENARIO	AMOUNT	RATIONALE
Conservative	$75,000	Comfortable deployment while 2025 tax liability is uncertain
Aggressive	$147,851	Full liquid capital deployment (post-1031 remainder)

ILLUSTRATIVE ALLOCATION

ASSET CLASS	SCENARIO %	CONSERVATIVE ($75,000)	AGGRESSIVE ($147,851)	EDUCATIONAL RATIONALE
Bitcoin	55%	$41,250	$81,318	Bitcoin serves as a core wealth accumulation vehicle due to its fixed supply of 21 million coins and growing institutional adoption. Moderately aggressive profiles commonly allocate 50–70%.
STRC	30%	$22,500	$44,355	STRC provides Bitcoin-correlated income (historical yield ~10–12%) for investors seeking passive cash flow with Bitcoin exposure. Verify current yield at time of investment.
VTI / VOO	15%	$11,250	$22,178	VTI provides broad U.S. equity exposure at low cost (0.03% expense ratio). VOO tracks the S&P 500. Commonly used for equity diversification.

This scenario models one approach based on the moderately aggressive, growth-focused profile indicated. Specific investment decisions should be made in consultation with a licensed financial advisor who understands your complete situation, risk tolerance, and existing portfolio (including your current $50K brokerage position and small Bitcoin holding).

⚠ **Capital Deployment Timing:**

Given the uncertainty around your 2025 tax liability, your CPA should confirm which portion of the $147,851 is available for deployment before any investment scenario is implemented. The conservative scenario ($75,000) may be more appropriate until 2025 taxes are finalized.

These scenarios are for educational illustration. All investments carry risk including potential loss of principal. Bitcoin and cryptocurrency investments are highly volatile and speculative. Historical yields for STRC are not guaranteed. Past performance does not guarantee future results. Consult a licensed financial advisor before making investment decisions.

SECTION 7

Comprehensive First-Year Value Summary (2026)

This table consolidates all modeled strategies and scenarios into a single view. Conservative assumes cautious deployment and core strategies only. Aggressive includes real estate acquisition and full capital deployment.

CATEGORY	ITEM	CONSERVATIVE	AGGRESSIVE	NOTES
CATEGORY A: TAX OPTIMIZATION (MODELED SAVINGS AT 40.3%)				
Tax	Solo 401(k) Tax Savings	$9,874	$18,639	Employee only (C) · Employee + Employer (A)
Tax	HSA Tax Savings	$0	$1,773	Requires HDHP · $4,400 individual (2026)
Tax	Augusta Rule Tax Savings	$2,418	$3,949	Business deduction at 40.3%
Tax	Home Office Tax Savings	$604	$604	Simplified method $1,500 × 40.3%
Tax	Vehicle/Mileage Tax Savings	$2,191	$3,506	72.5¢/mile × 7,500–12,000 miles
Tax	Accountable Plan Tax Savings	$1,209	$2,015	S-Corp reimbursement structure
	Tax Optimization Subtotal	**$16,296**	**$30,486**	
CATEGORY B: INVESTMENT INCOME (YIELD / DIVIDENDS)				
Income	STRC Income (est. 11% yield)	$2,475	$4,879	Verify current yield at time of investment
Income	VTI/VOO Dividends (est. 1.8%)	$202	$399	Broad market dividend income
	Investment Income Subtotal	**$2,677**	**$5,278**	
CATEGORY C: INVESTMENT APPRECIATION (MODELED)				
Growth	Bitcoin Appreciation	$10,312	$40,659	25% cons · 50% agg (illustrative)
Growth	STRC Appreciation	$3,375	$13,307	15% cons · 30% agg (illustrative)

Growth	VTI/VOO Appreciation	$900	$2,661	8% cons · 12% agg (illustrative)
	Appreciation Subtotal	**$14,587**	**$56,627**	
CATEGORY D: REAL ESTATE (NEW ACQUISITION — AGGRESSIVE ONLY)				
RE	STR Net Operating Income	$0	$30,000	Estimated annual NOI
RE	Property Appreciation (5%)	$0	$18,750	On $375K property
RE	Mortgage Principal Paydown	$0	$4,500	Year 1 principal portion
RE	Cost Seg Tax Savings	$0	$45,173	100% bonus dep (OBBBA) at 40.3%
	Real Estate Subtotal	**$0**	**$98,423**	
CATEGORY E: CASH FLOW IMPROVEMENTS				
Cash Flow	W-4 Optimization	$2,400	$4,800	Reducing over-withholding
Cash Flow	Debt Interest Savings	$0	$2,500	Potential savings on financed property refinancing
	Cash Flow Subtotal	**$2,400**	**$7,300**	
CATEGORY F: WEALTH BUILDING (DOLLARS POSITIONED)				
Wealth	Solo 401(k) Contributions (2026)	$24,500	$46,250	Employee only (C) · Employee + Employer (A)
Wealth	HSA Contributions	$0	$4,400	Requires HDHP · $4,400 individual (2026)

Wealth	Backdoor Roth IRA	$7,500	$7,500	$7,500 single (2026) · no catch-up at age 34
Wealth	Augusta Rule Income Received	$6,000	$9,800	Tax-free personal income (14-day rule)
Wealth	RE Equity Position	$0	$75,000	Down payment if additional RE acquired
	Wealth Building Subtotal	**$38,000**	**$142,950**	
TOTAL MODELED FIRST-YEAR VALUE (2026)		**$73,960**	**$341,064**	

MODELED 2026 FIRST-YEAR VALUE RANGE

$73,960 — $341,064

Conservative (tax strategies + investment only) to Aggressive (full implementation including RE)

Important: Projected values are illustrative estimates for the 2026 tax year based on assumptions stated. Investment appreciation is based on historical performance and is not guaranteed. All investments carry risk including potential loss of principal. Bitcoin and cryptocurrency investments are highly volatile and speculative. Tax savings calculations use a combined 40.3% marginal rate (35% federal + 5.3% Idaho). Verify all figures with your CPA and licensed financial advisor.

SECTION 8

Timeline Considerations

The following timeline awareness items are organized by general priority. These are not action directives; discuss sequencing with your professional team.

Immediate Awareness (February–March 2026)

2025 Solo 401(k) employer contribution window (open until tax filing deadline + extensions). 2025 IRA/Roth contribution window (open until April 15, 2026). Daughter's SSN status and filing extension strategy discussion with CPA. Review 2025 1031 exchange documentation and capital gains position with CPA.

Near-Term Awareness (Q1–Q2 2026)

2026 Solo 401(k) employee deferrals: adjust payroll withholding through S-Corp. Augusta Rule documentation and rental agreements for 2026 events. HSA eligibility evaluation during next open enrollment or qualifying event. Mileage log establishment if not already tracking. Accountable plan adoption by S-Corp board resolution. Insurance professional consultation for HDHP evaluation.

Mid-Year Awareness (Q3–Q4 2026)

Year-end tax planning meeting with CPA (October–November). Solo 401(k) employer contribution calculation based on actual S-Corp salary. W-4 adjustment review based on projected year-end position. If considering real estate acquisition, allow time for property search, cost seg study engagement, and financing. Solo 401(k) employee deferrals must be completed by December 31, 2026.

Key Deadlines (2026)

DEADLINE	ITEM
April 15, 2026	2025 IRA/Roth IRA contribution deadline · 2025 HSA contribution deadline · 2025 tax return (or extension)
October 15, 2026	Extended 2025 tax return deadline (if extension filed)
December 31, 2026	Solo 401(k) employee deferrals · Solo 401(k) plan establishment (for new plans) · Property placed in service for 2026 depreciation
April 15, 2027	2026 IRA/Roth contribution deadline · 2026 HSA contribution deadline · Solo 401(k) employer contribution deadline

SECTION 9

Discussion Guide for Your Professional Team

Questions for Your CPA

→ "Given the 1031 exchange and property improvements, what is the confirmed 2025 capital gains liability, and how much of my liquid capital is truly available for 2026 deployment?"

→ "What is the optimal Solo 401(k) employer contribution percentage given my S-Corp reasonable salary for 2026?"

→ "Is my S-Corp business classified as an SSTB for QBI purposes? What is my estimated QBI deduction for 2026?"

→ "Should I file a 2025 extension to allow time for my daughter's SSN to be obtained? What is the impact on the dependent exemption and child tax credit ($2,200 under OBBBA)?"

→ "Can I do a cost segregation study on my existing 1031 exchange properties? When were they placed in service relative to the January 19, 2025 OBBBA cutoff?"

→ "What is the SALT deduction impact at the new $40,000 cap (OBBBA) given my Idaho income taxes and property taxes?"

Questions for Your Financial Advisor

→ "How should I structure a Backdoor Roth IRA contribution given my existing traditional IRA balances (pro-rata rule considerations)?"

→ "What is the appropriate investment timeline and risk management approach for my liquid capital, given the 2025 tax uncertainty?"

→ "How should the $30K sister loan be documented and structured? Is there gift tax reporting needed (annual exclusion is $19,000 for 2026)?"

Questions for Your Insurance Professional

→ "Is switching to an HDHP appropriate for my situation to unlock HSA contributions? What would the net savings be compared to my current plan?"

→ "What is the review status of my whole life insurance policy? Is the premium structure optimal given my current financial position?"

→ "Do I have adequate umbrella liability coverage given my $850K home and rental property portfolio?"

Questions for Your Real Estate Contact

→ "Are there STR-friendly markets in Idaho or nearby states where I could acquire a property in the $350–$400K range?"

→ "What is the rental income potential for my existing LTR properties if converted to STR or mid-term rental?"

→ "Are there opportunities to leverage the equity in my $850K primary residence for investment purposes, given my situation?"

SECTION 10

Professional Team for Implementation

The strategies modeled in this document span tax, legal, investment, and real estate domains. Implementation discussions are most productive when coordinated across the following professionals:

PROFESSIONAL	ROLE IN IMPLEMENTATION	YOUR STATUS
CPA / Tax Professional	Solo 401(k) maximization, Augusta Rule documentation, cost segregation analysis, 2025 return filing strategy, HSA setup, W-4 optimization, content creation deductions, QBI calculation	✓ Have CPA
Financial Advisor (Licensed)	Investment allocation implementation, Backdoor Roth IRA execution, education savings for daughter, portfolio rebalancing	✓ Have advisor
Real Estate Agent / Investor	Property management optimization, STR conversion feasibility, additional acquisition opportunities, market analysis	✓ Have RE contact
Bookkeeper	Expense tracking, mileage logging, Augusta Rule payment processing, content creation expense categorization	✓ Have bookkeeper
Attorney (Estate / Business)	Entity review, daughter's guardianship/estate planning, asset protection, trust considerations	⚠ Consider adding — especially for estate planning with minor child
Insurance Professional	HDHP evaluation for HSA eligibility, rental property insurance review, umbrella policy assessment	✓ Have — looking to switch

SECTION 11

Implementation Milestones

If the strategies modeled in this snapshot are explored and implemented with your professional team, the following milestones represent common checkpoints. These are illustrative benchmarks, not guaranteed outcomes.

TIMEFRAME	MILESTONE	KEY STRATEGIES
Month 1–2	Foundation Established	2025 tax position confirmed, Solo 401(k) deferrals scheduled, Backdoor Roth IRA initiated, mileage tracking active, accountable plan adopted
Month 3–4	Tax Optimization Active	Augusta Rule documentation in place, home office structured, W-4 adjusted, HSA evaluation complete
Month 5–8	Investment Deployed	Capital deployed per confirmed availability, investment accounts established, daughter's SSN and tax credit resolved
Month 9–12	Year-End Review	Solo 401(k) employer contribution calculated, year-end tax planning, RE acquisition evaluation (if pursuing aggressive scenario), 2027 strategy planning initiated

SECTION 12

Educational Resources

IRS Resources:

IRS Publication 560: Retirement Plans for Small Business (Solo 401(k), SEP, SIMPLE). IRS Publication 969: Health Savings Accounts and Other Tax-Favored Health Plans. IRS Publication 587: Business Use of Your Home. IRS Publication 463: Travel, Gift, and Car Expenses. IRS Notice 2025-67: 2026 Retirement Plan Limits. Rev. Proc. 2025-32: 2026 Standard Deductions, Brackets, HSA Limits. Rev. Proc. 2025-19: 2026 HSA/HDHP Limits.

OBBBA Provisions (Signed July 4, 2025):

100% bonus depreciation permanently restored (post-Jan 19, 2025 acquisitions). SALT cap raised to $40,000. Section 179 expanded to $2,500,000 (phase-out at $4,000,000). Child Tax Credit increased to $2,200. QBI deduction made permanent. Non-itemizer charitable deduction: $1,000 single / $2,000 MFJ. Standard deduction increase.

Idaho-Specific:

Idaho flat income tax rate: 5.3% (HB 40, effective retroactively Jan 1, 2025). Idaho State Tax Commission: tax.idaho.gov. Idaho capital gains deduction: up to 60% of capital gain net income from qualifying Idaho property sales.

SECTION 13

Important Disclaimers

Educational Purpose: This Wealth Strategy Snapshot is provided for educational and illustrative purposes only. It does not constitute individualized investment, tax, or legal advice.

Not Investment Advice: Legacy Investing Show and its staff are not registered investment advisers. This document does not recommend the purchase, sale, or holding of any security. Investment scenarios presented are illustrative models for educational purposes only. All investments carry risk including potential loss of principal.

Not Tax Advice: Tax strategies discussed are educational explanations of how certain provisions work. Eligibility, implementation, and actual tax savings depend on your specific circumstances and must be verified by a qualified CPA or tax attorney before implementation.

Not Legal Advice: Entity structure, asset protection, and partnership discussions are educational. Consult a qualified attorney for legal guidance specific to your situation.

No Guarantees: Projected values, potential savings, and scenario outcomes are illustrative estimates based on assumptions stated. Actual results will vary based on market conditions, tax law changes, and individual circumstances. Past performance does not guarantee future results.

Investment Risk Disclosure: All investments involve risk. Bitcoin and cryptocurrency investments are highly volatile and speculative. Real estate investments carry risks including market fluctuations, vacancy, and unexpected expenses. You could lose some or all of your invested capital.

Tax Law Changes: Tax laws change regularly. Information presented reflects understanding as of February 2026 using 2026 IRS limits per Rev. Proc. 2025-32 and IRS Notice 2025-67, incorporating OBBBA provisions signed July 4, 2025. Idaho state rate of 5.3% per HB 40 (March 2025). Verify current rules with your tax professional.

Professional Consultation Required: Before implementing any strategy discussed in this document, consult with qualified licensed professionals including a CPA, attorney, and/or registered investment adviser who understand your complete financial situation.

Limitation of Liability: Legacy Investing Show assumes no liability for actions taken based on information in this educational document. You are solely responsible for your financial decisions.
